I. Minutes and Agenda

A. Approval of: September 28, 2017 Minutes (*Action*)

The minutes were edited to reflect that during the walk-in discussion, Mesa walked-in the Sustainability Associate of Science Degree because faculty have been working on the program for a long time and the narratives are ready to be submitted.

Corrections to the Standing Reports section were made.

III. OLD BUSINESS

A. Labor Market Information (Information)

Hess reported that she will be attending the next CTE Deans meeting to discuss and bring back recommendations for changing the labor market information (LMI) form that faculty submit to the local Board of Trustees for new career technical programs. Currently, faculty submit three different and separate reports to the State Chancellor's Office, the region and the local Board of Trustees with duplicate LMI.

The goal is to update the LMI form that is submitted to the Board of Trustees so that it is consistent with the format and requested information as the report to the State Chancellor's Office and the region.

IV. NEW BUSINESS

B. Walk-Ins:

Miramar:

Palma-Sanft walked-in the following curriculum:

1. BIOL 135

Discussion: BIOL 135 is a transfer course that was walked-in for distance education only. The course is for completion and to provide students with the opportunity to take the course during intercession.

<i>Recommend Approval of BIOL 135</i>
<i>Motion by Namdar</i>
<i>Second by Hopkins</i>
<i>Final Resolution: Motion carries</i>
<i>Aye: Boots, Gustin, Moller, Norvell, Palma-Sanft, Parker, Recalde</i>

The ESOL to ELAC Miramar-Originated Proposal Impacts discussion took place after City's Walk-In discussion

2. ESOL to ELAC Miramar-Originated Proposal Impacts

Discussion: The Advanced ELAC Certificate of Performance has been added in CurricUNET. The ENGL 035 and its impacts are in CurricUNET and would like an effective date of fall 2018.

2. ELAC: New, Revised, Deactivated Courses and Programs and their Impacts

Boots reported that their walk-ins for ELAC are a result of the program change from ESOL to ELAC. All ELAC courses are core classes and all other walk-in courses and programs are impacts that have a requisite or an advisory of ESOL. The following were discussed:

- Courses where ESOL 045 was the same level as ESOL 47A or ENGL 48 and ENGL 49, it will be removed from those courses since it is being deactivated.
- Boots shared that it was recommended by Vice Chancellor Neault that some of the current courses be revised with the new designator and new numbers or to create new courses.
- It was discussed that ELAC 044—Supervised Tutoring, be walked-in because it is a basic skills course that can claim apportionment.
- Palma-Sanft asked if the impact proposals apply only to conversions because Miramar’s Curriculum Committee approved just the conversions. The following points were discussed:
 - ENGL 031: Boots shared that Short recommended to add the ELAC prerequisite on the course.
 - ENGL 047A: It was recommended by Short to add the advisory of completing ELAC 045 with a skill level of L40 or ELAC 045 and ELAC 033 with a skill level if below 40; this is to clarify that it is an advisory of R3/W3
 - ENGL 237: Boots shared that it was suggested to change some of the description language from “looks at men and women authors” to “different authors.” Palma-Sanft reported that Miramar’s Curriculum Committee have not looked at that change. The course cannot be held otherwise the ELAC program cannot move forward for approval. To move the program forward it was agreed that City will revert back to the original language of the description. After Miramar discusses the changes, they can submit a proposal with the changes.
 - COMS 099: The course was revised to add ELAC 033 as an advisory and will deactivate after the program is approved.
 - 30 Unit Limit: ELAC is exempt from the 30 Unit Limit because it is an English as a Second Language program (there is a 30 unit limit on basic skills courses that students are allowed to take). ELAC will be identified by the state through the TOP code and locally identified through the designator.
