Introduction

Overview

This report is intended to provide information regarding Disability Support Programs and Services (DSPS) students and their course-taking behaviors. This report also includes benchmarks that may be used as a point of reference, including averages for the DSPS student population and all student population.

Methodology

The data for this report are generated by SDCCD Information Systems. Student demographics and characteristics, course completion, and vocational course headcounts are provided separately for each primary term (fall and spring) in the 2008-09 academic year. FTES, course success, and retention are calculated for the entire academic year.

Please note that the methodology differs slightly from previous years. Only students enrolled past census day are measured and college affiliation is determined by the students' college of coursework to more accurately represent students who take classes at multiple colleges in the district. Additionally, previous reports measured online and vocational courses as unduplicated headcounts. This report measures online and vocational courses by course enrollments.

Operational Definitions

All Colleges – Includes City College, Mesa College, Miramar College, and ECC. As some students attend multiple colleges, a count of students or enrollment at each of the colleges and ECC will not sum to an All College total count of students or enrollment.

Average Term GPA – An average of the fall and spring term student GPAs.

DSPS special classes - Classes with 50% or greater DSPS-identified student enrollment.

Enrollment - The number of seats or duplicated headcount.

FTES - Total number of full time equivalent students enrolled at first census.

Headcount - The number of students or unduplicated headcount.

Official Census Enrollment - All students who are enrolled as of the course designated census day (excludes Drops but includes Withdrawals). Characterized or marked by the week nearest to 20% of the number of weeks in the primary term and generally the Monday of census week.

Retention Rate - The percentage of students who complete a course with a grade of A, B, C, D, F, P, NP, I or RD out of total census enrollments. (Note: Tutoring classes are included).

Success Rate - The percentage of students who complete a course with a grade of A, B, C, or P out of total census enrollments. (Note: Tutoring and non-credit classes are excluded).
